Fred Wennekes

We are Fred and Annelies. For as long as we can remember, we have visited Austria both during the summer and the winter time. Together with our children we have already made many, many beautiful memories. Waking up in the morning overlooking the Alps, hiking in the mountains surrounded by cows and streams, enjoying lunch in a mountain cabin with a fireplace after a ski tour, partying and dancing during the 'Après-ski' or walking through the snowy woods with our dogs. We opened our first lodge in 2021 and we are now the proud owners of 4 unique locations. This way, we get to live our dream of being in Austria more often and to make other people happy with a wonderful accommodation during their stay. We also wish for other families, couples and friends to make those beautiful alpine memories together. Welcome, and enjoy the beautiful fairytale (winter) wonderland of Austria.
